

Public Notice

Permit Application Number: NRS# 04.062

Applicant: Robert W. Petty
316 Windmere Drive
Nashville, TN 37215

Location: Falls Creek at Mile 0.1 adjacent to Williams Hollow Road. Pugh Town.
Maury County

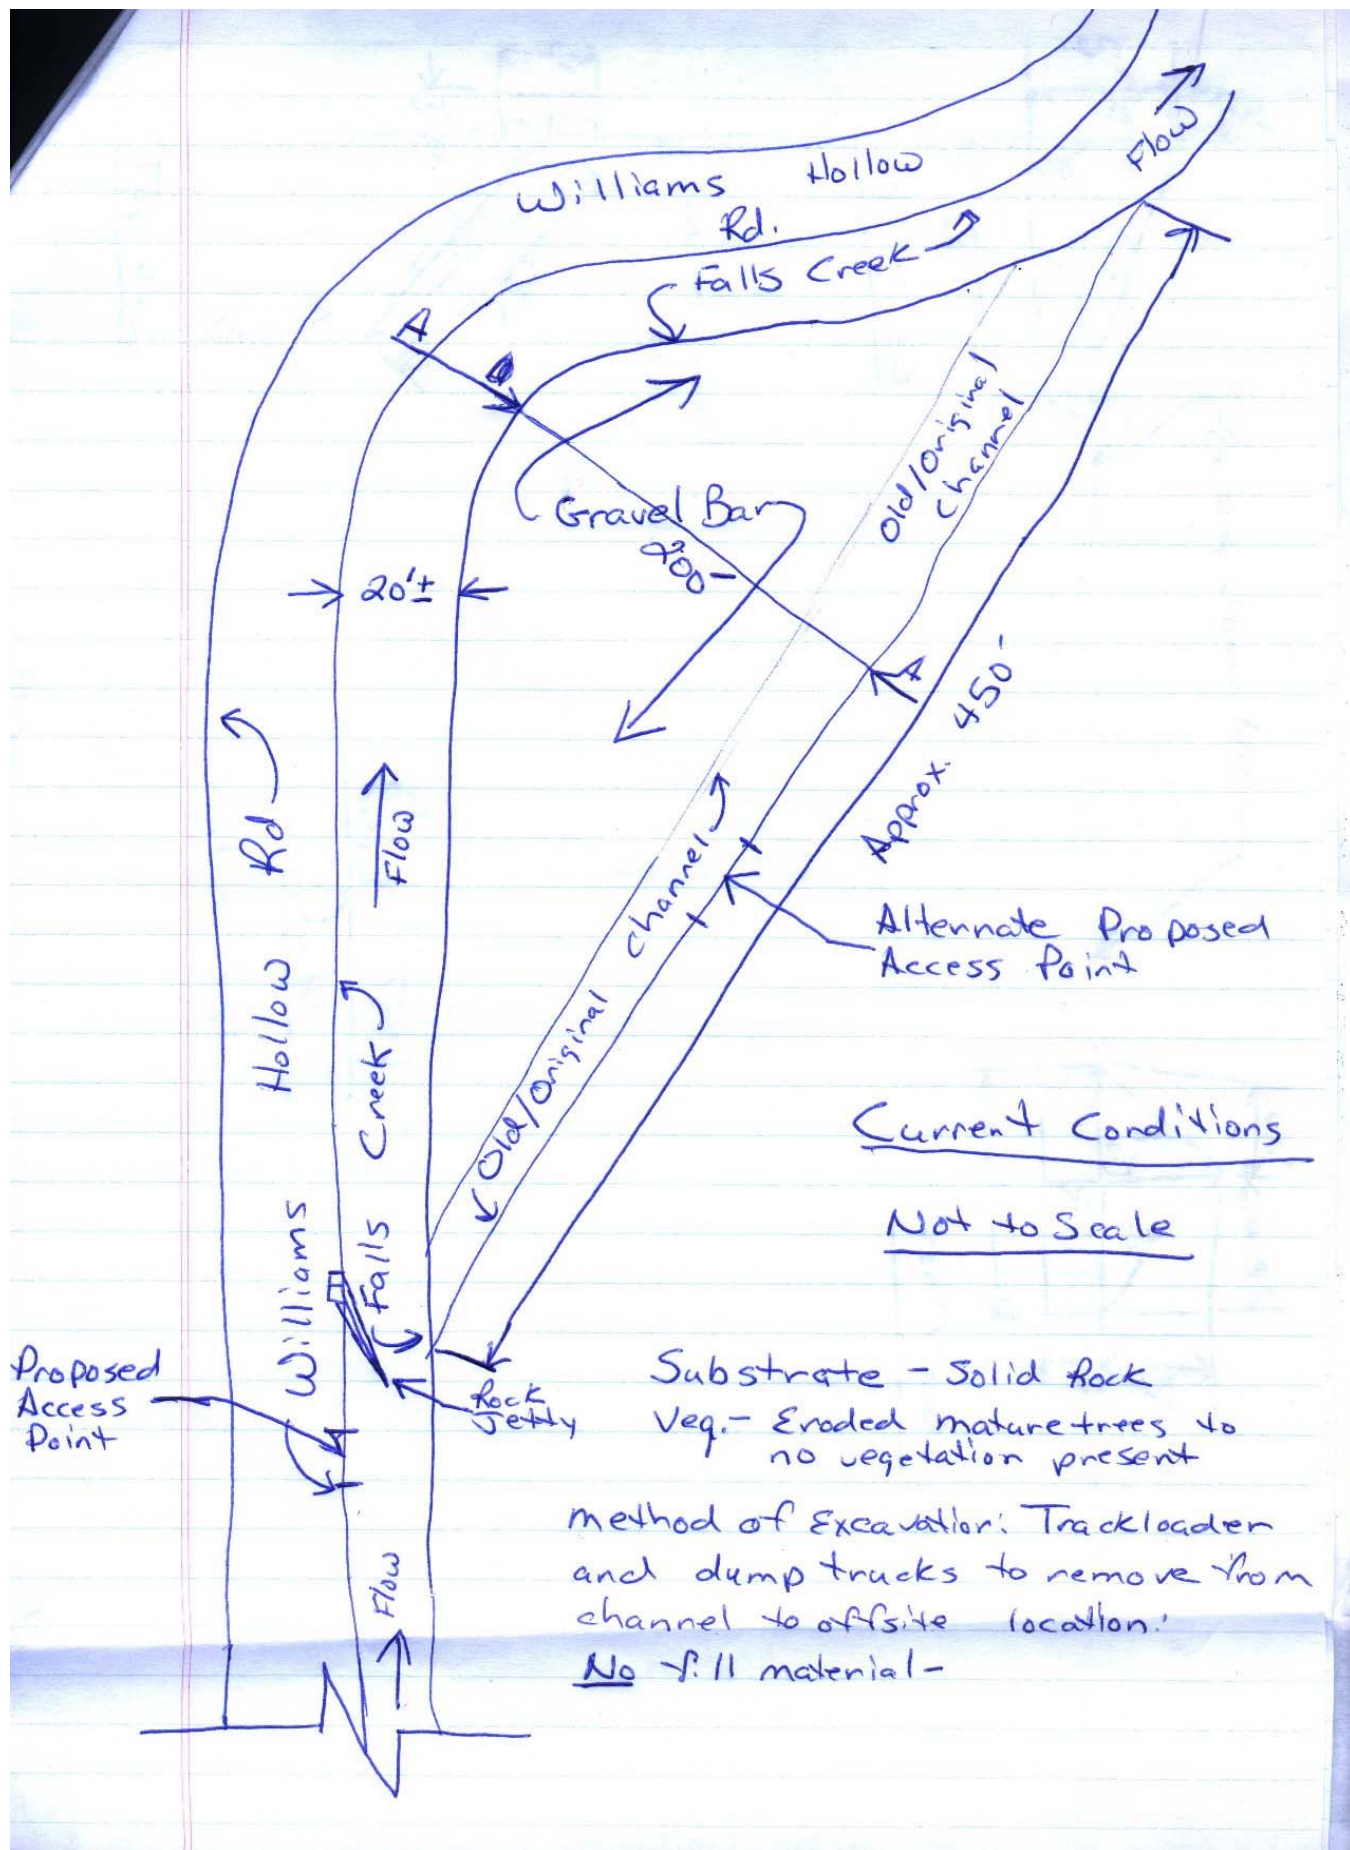

Watershed Description: The proposed project lies on Falls Creek, which is located within the Lower Duck River watershed (Hydrologic Map Unit TN06040003). Falls Creek at the location consists of an approximate 20' wide channel with a gravel and cobble substrate. The immediate area of the site is within a mixed agricultural and residential setting

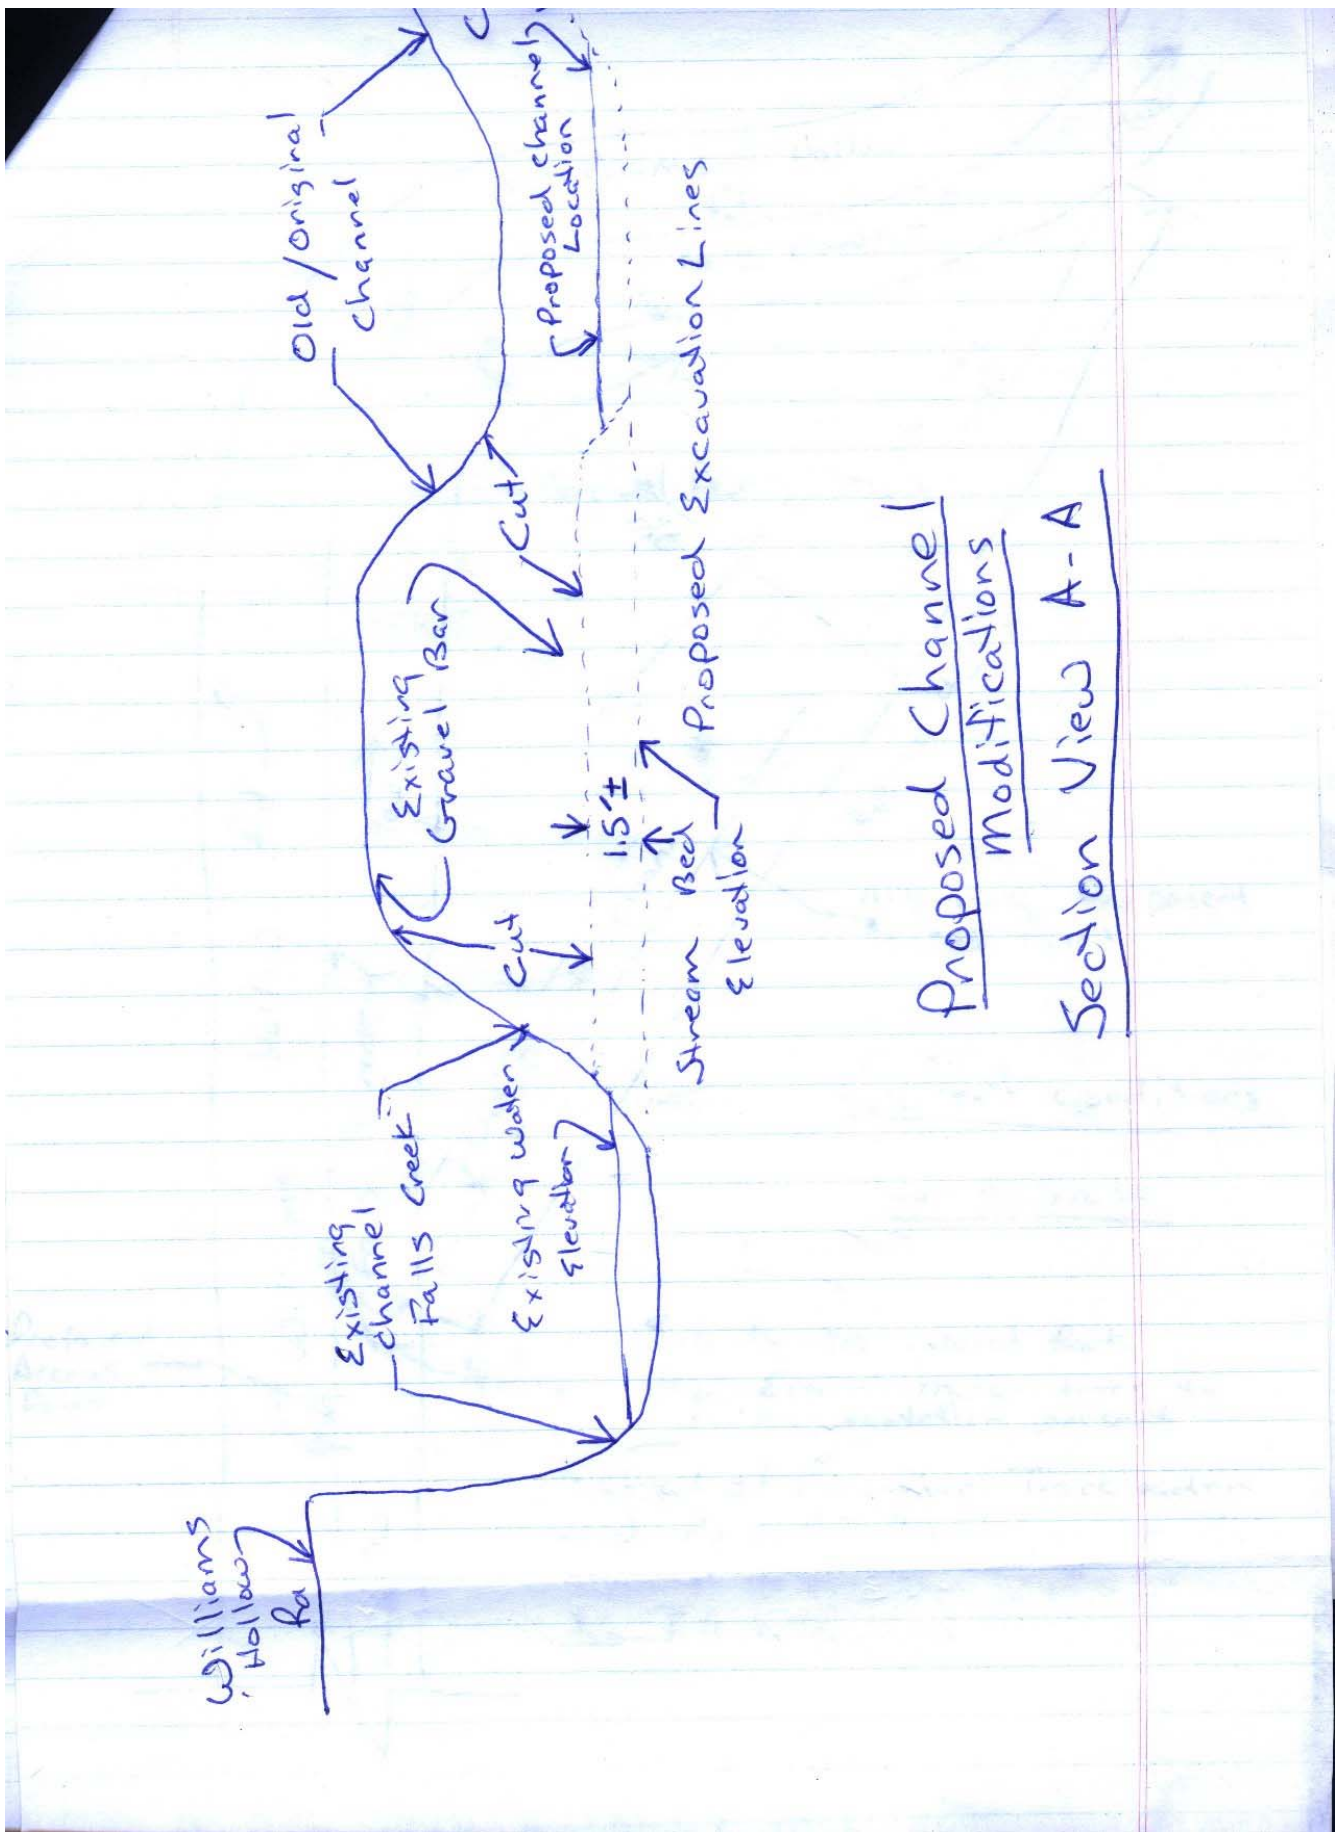

Description: The applicant proposes to remove a gravel bar through dredging and relocate the flow of Falls Creek back into the old channel. The gravel bar, which is adjacent to Williams Hollow Road, is approximately 450' in length and has a varying width of less than 200'. Flow will be diverted by a rock jetty that is approximately 25' in length and will be keyed into the left bank descending of Falls Creek.
